FASHION TRANSPARENCY INDEX 2023 SHOWS OUR IMPROVEMENT

Transparency is at the core of our company – especially when it comes to our sustainability progress and challenges. So, how does Fashion Revolution evaluate our current effort? Transparency is one of the key pillars of our sustainability strategy BE PART.

That's why we would like to share our ranking in Fashion Revolution's Fashion Transparency Index of 2023. We are proud that our company's score has improved to 50%, putting us in 29th place. A significant step forward compared to 2022, when we scored 42% and ranked 58th.

Fashion Revolution is the world's largest fashion activism movement. Every year, they review 250 major fashion brands and retailers. The ranking is then decided according to their level of transparency about their supply chain, human rights and environmental policies, practices and impacts.

Transparency is crucial to our company. It holds us accountable, and this progress is not the end of the story: We are committed to providing accurate information about our supply chain, production and impact on people and the planet.
